

At Urological Associates of Southern Arizona, we want to assure our patient community the safety of our patients and employees is our highest priority. We are actively taking measures to maintain a safe environment for our patients and staff. The health, safety and peace of mind of our patients is our top priority. We have been working closely with and following the updates from the Centers for Disease Control and prevention (CDC), and other agencies to stay up to date with the latest information.

We have implemented a screening process for all patients who schedule an appointment. If a patient is found to be at high risk because they have traveled one of the countries on the CDC level 3 list or have had close contact with a person with COVID-19 AND are showing active symptoms the patient's appointment will be cancelled at this time and urged to contact their primary care provider and/or Pima County Health Dept. (PCHD). The patient appointment will be scheduled at a later date.

We diligently follow established infection control precautions and are educating our staff to follow all CDC recommendations. We are committed to continuing our delivery of excellent healthcare while implementing these precautionary measure of safety during this challenging time.

For more information on COVID-19 symptoms, prevention and more, visit <https://www.cdc.gov>

In addition, if you are limiting your exposure to the public or would like to reschedule your appointment for any other reason, we will be happy to assist you.

Thank you,

The Physicians and Staff of Urological Associates of Southern Arizona
